Pictures

Advantages of using Web based Global Project Management System (BBMP-GPMS) the goal of BBMP was to use technology aided tools to enable efficient,transparent and bring about accountability in all e-governance services.

To provide total transparency in all the civic functions of BBMP.

Empower citizens by providing them accurate ready-to-view real-time information online.

Provide a single-point database for all citizen services and matters.

Enable access to central repository to all citizen data through cloud services. Bring about constant improvement in e-governance services through continuous public feedback.

Now BBMP has provided this portal for public to register complaints, view projects, provide additional information, suggestions of their interest and update delays or inconvenience caused through this BBMP-GPMS online portal.

Which is your Ward...?

BBMP Wards

Select a ward to know about it as well as to list the localities and projects under in it.

Ward Number	Ward Name	Reservation Category
1	Kempegowda	Backward Category B
2	Chowdeshwari	Backward Category A (Women)
3	Attur	General (Women)
4	Yelahanka Satellite	Backward Category A
5	Jakkur	General
6	Thanisandra	Backward Category A (Women)
7	Byatarayanapura	Scheduled Tribe
8	Kodigehalli	Backward Category B
9	Vidyaranyapura	General (Women)
10	Doddabommasandra	General
11	Kuvempu Nagar	Backward Category A (Women)
12	Shettyhalli	Scheduled Caste (Women)
13	Mallasandra	Backward Category A (Women)
14	Bagalagunte	General
15	T-Dasarahalli	General (Women)
16	Jalahalli	Scheduled Caste
17	J.P.Park	General
18	Radhakrishna Temple	Backward Category A
19	Sanjay Nagar	Backward Category B
20	Ganga Nagar	General
21	Hebbal	General
22	Vishwanathnagenahalli	Backward Category B

Once you click your ward name you will get the following page.

The screenshot shows a web interface with a navigation menu at the top: Home, Wards, Head Office, Education, Hospitals, Travels, Emergency, Amenities, Communications, HelpDesk, REMS. The main content area is titled "Chowdeshwari Ward (Ward No:2)".

Category	Backward Category A (Women)
Population:	19626
Male:	10402
Female:	9224
Area (sq. kms):	7.06
Assembly Constituency:	Yelahanka
Localities in the ward:	Harohalli, Harohalli kere, Kanchenahalli, ISRO Layout, Naganahalli, Naganahalli new layout, KEB Layout Phase I, Balaji Layout, Vinayaka Layout, Ramanashree California East Garden layout, Deo Marvel Layout, Mahalaxmi Layout, Nisarga Layout, CRPF Quarters, Puttanahalli, Puttanahalli kere, Monte Carlo apartment, DG staff quarters, Central excise quarters, Wheel and Axle plant, FM Goetze plant, Chowdeshwari Layout, Kamakshamma Layout, East Colony, Yelahanka (P), KHB Colony
Employees:	View details
Projects:	View details
Corporator Name:	K.V.Yeshoda

To the right of the table is a map showing the ward's location in Yelahanka, with a red pin on the Chowdeshwari Layout. Below the map is a "Feed Back" form with the following fields:

- Title*
- Name*
- Phone no*
- Email*
- Comments*

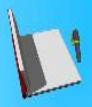

A "Submit" button is located at the bottom of the form.

Here you are given an option to give valuable feedback about your ward.

Here you can view the BBMP employee of your ward just by clicking view details of employee.

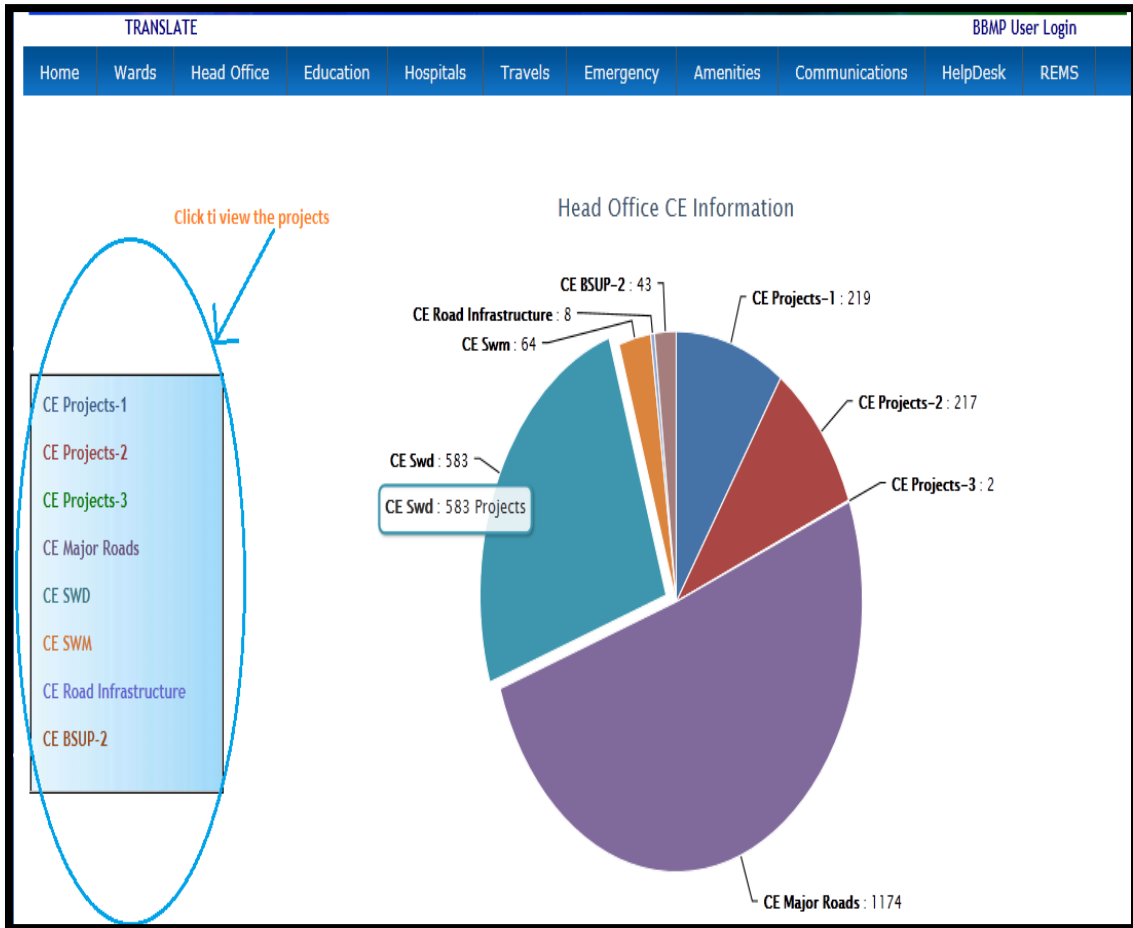

Here you are given an option to view the all projects of your ward just by one click, which is shown below.

Here you are given an option to view the complete details of each project and you can also write your queries against each project.

WELCOME TO HELP DESK
Indian CST Citizen Services

Indian Centre for Social Transformation (ICST) has evolved a Global Project Management (GPM) to improve efficiencies of operations. Similarly Karnataka State Police Housing Corporation Limited (KSPHC) has evolved a web based Project Management System (WPBMS) that helps to execute all kinds of projects with greater professionalism, transparency and stakeholder involvement. GPM/WBPMS are productivity tools available to any Project sponsor to monitor his projects closely. Involvement of all his stake holders in project monitoring ensures that the progress of the project from conception to completion is tracked closely and managed in a methodical manner to ensure that outcomes match outlays. GPM/WBPMS give the project stakeholders an integrated methodology of managing their projects from their desktops in a collaborative manner and quickly identify those pain areas that need to be resolved before they cause further damage to the projects. GPM/WBPMS aim to usher in good governance by providing a mechanism for policing the publicly funded projects incorporating the principles of total transparency, right to information and financial propriety. In case of GPM, a measurement tool is also incorporated to enable the progress being made.

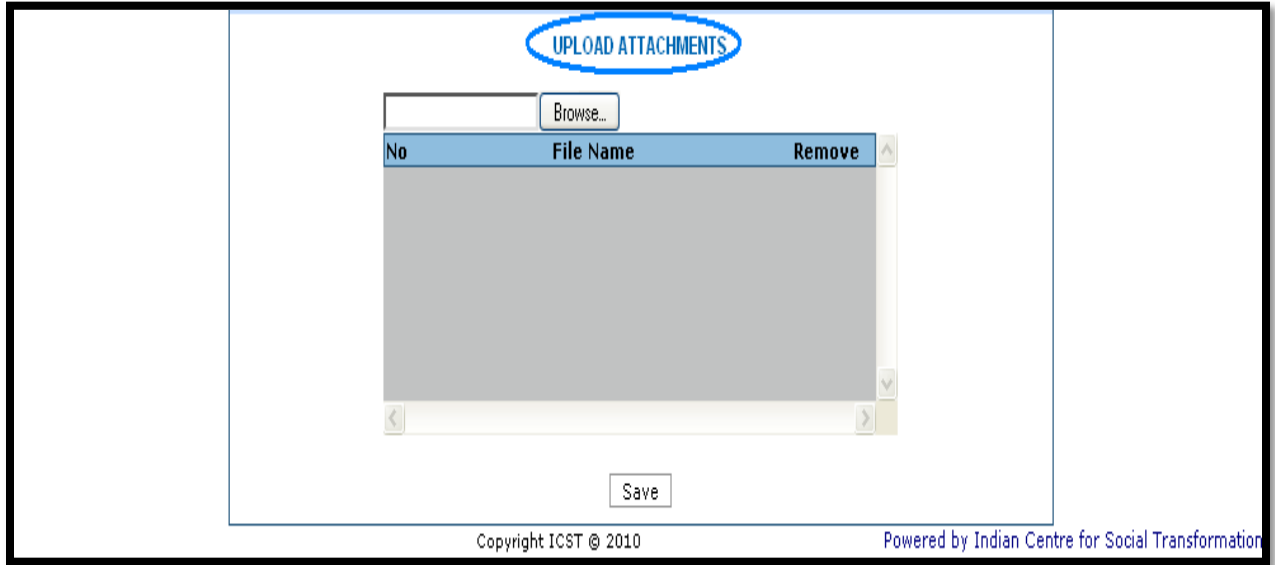

You can upload photos, videos, audio, notes, signature which takes Automatic GIS Information and integrates into our Global Project Management System (GPMS) whenever you upload files from your mobile phone the files goes directly to the HELP DESK / WORK CODE. This is a novel unique feature in our online HELP DESK.

11 (REMS) Remote Eye Monitoring System

The surveyor carries a mobile phone with the vigilance application installed in it. When he logs in with the login/password assigned to him, the list of tasks categorized under each work ID, are shown. He can choose one task at a time and do the corresponding information gathering. In general, for each task, he will perform the following operations,

- Visit the relevant locations as required by the task
- Answer the checklist
- Capture audio, video, text and other information as required by the task
- Sign off that the collected information is correct & complete.
- The data will be geo-stamped as specified in the task definition
- The data is uploaded to the GPMS server on an immediate basis

The same method is followed for each of the tasks assigned to the given login.

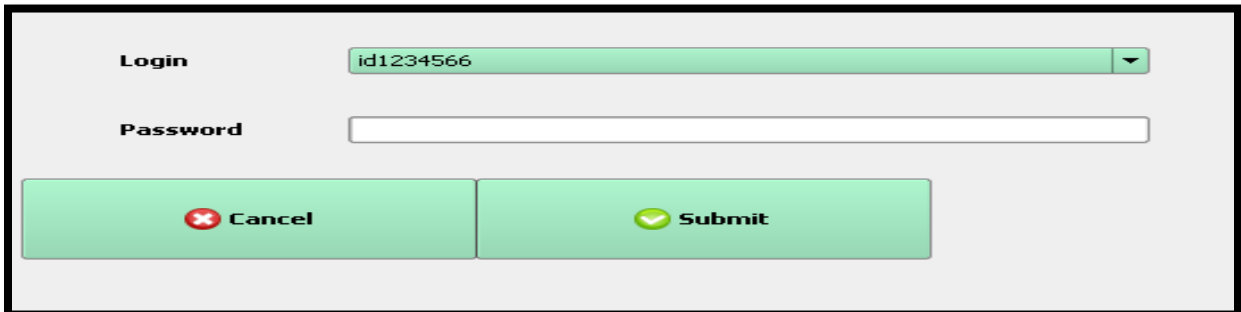

Multiple logins can be assigned to one field officer at different points in time. The officer creating the tasks can make the assignment appropriately.

Intelligence Reports

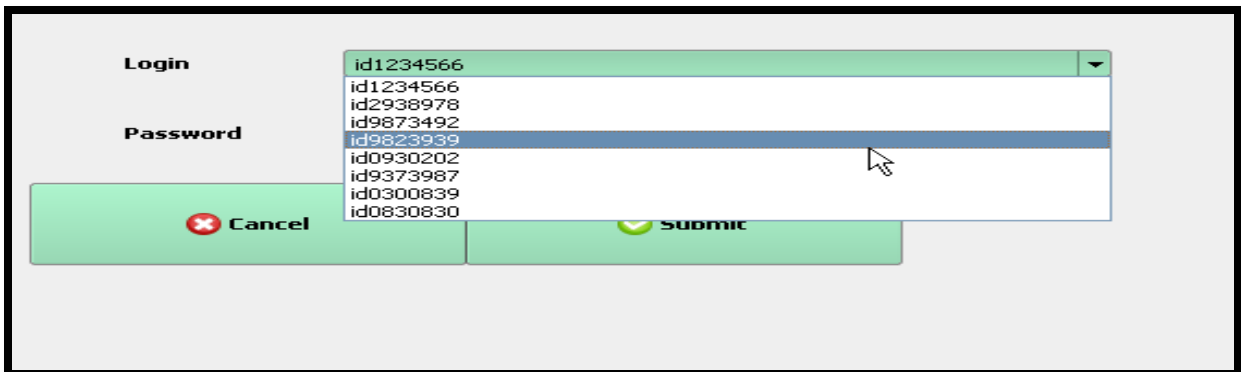

Once all the tasks related to a work ID is complete, the GPMS system should generate a comprehensive report (preferably a PDF file), containing the complete details of the project, results of the survey, photos, audio/video, list of discrepancies found, etc. and submit the same to the concerned authorities. The same should be available online, through the GPMS website.

REMS Screenshots

Logging In

The screenshot shows a login form with two input fields: "Login" and "Password". The "Login" field is a dropdown menu with "id1234566" selected. Below the fields are two buttons: "Cancel" (with a red 'X' icon) and "Submit" (with a green checkmark icon).

The screenshot shows the same login form, but the "Login" dropdown menu is open, displaying a list of login IDs: id1234566, id1234566, id2938978, id9873492, id9823939, id0930202, id9373987, id0300839, and id0830830. A mouse cursor is pointing at the list. The "Submit" button is highlighted in green.
